Kyrre Tangen Andersen

Partner

Kyrre has 15 years of experience at the forefront of intellectual property law, energy law, technology disputes, and complex commercial litigation. He is recognized as one of Norway's leading practitioners across IP and technology law — areas that together represent some of the most strategically important and rapidly evolving fields in modern legal practice. Kyrre is ranked in Chambers & Partners, The Legal 500, and IAM Patent 1000, and was named by Business Today as one of the top 10 most influential IP lawyers in Norway.

He has been involved in some of Norway's most high-profile patent cases and is an experienced litigator in large and complex proceedings before both the ordinary courts and courts of arbitration, including high-value oil and gas contract disputes. Kyrre is also an experienced commercial negotiator, representing clients in complex, high-value negotiations spanning energy contracts, IP transactions, M&A processes, and licensing arrangements — combining legal precision with commercial pragmatism. Clients highlight his ability to master complex technical subject matter across disciplines - a decisive advantage in litigation, negotiations, and transactions where technical and legal complexity are inseparable.
