Oslo

Mari Cecilie Hansen

Associate

Mari joined the firm in 2022 and is part of our Energy department. Her principal work areas are regulatory and transactional matters within the energy and shipping sector. She has experience in advising on regulatory matters concerning onshore and offshore renewable energy, power purchase and grid connections and oil & gas. Mari also provides guidance on diverse corporate compliance issues, including risk assessments, enhancements to compliance programs, and integrity due diligence and ESG, especially within the shipping and energy industries.

Mari holds a Master of Laws from the University of Oslo, and an LL.M. from Bond University, specializing in international contract law.
